

2009 Photography Pricing

www.brightpixel.com

matt@brightpixel.com

Thank you for your interest in BrightPixel Photography! Below is a price listing for my most common services and products. There are many print and production options available outside the scope of this list, so if you have any questions or special requests, please let me know! Prior to every session, I will create a custom fee and price list for your requested services so that we can discuss the details in advance.

Personal Shoot:

\$150/session

Commercial Shoot:

\$300/session

\$600/day

Session Fee: *This fee is for my on site time as a photographer (up to 2 hours) as well as post production processing time. Most studio product shoots fall under this category (up to 8 products). This fee does not include print or image licensing—please see below for pricing.*

Day Fee: *For longer sessions (up to 8 hours), a day fee is required in place of the session fee. Travel and expenses are also added to this day rate.*

Prints:

These prints are professionally processed and coated for clarity and protection. Since each client has unique design requirements, the following prices are for prints only, not framing or matting.

4x6	\$15.00
6x9	\$20.00
8x10	\$33.00
8x12	\$35.00
10x15	\$50.00
12x18	\$95.00
16x24	\$150.00

Personal Print Packages: Every \$150 worth of print orders includes a free 8x12 print (a \$35 value).

Canvas Gallery Wraps:

Photos are printed on canvas and wrapped around a 1.5" wooden stretcher frame, ready for hanging.

11x14	\$200.00
16x20	\$250.00

Licensing:

Pricing for photo licensing depends on several variables: size and placement of photo, type of publication, and circulation. Licensing prices are quoted on an individual basis. Please contact me for a quote: matt@brightpixel.com
